

## N 14 - Les fractions décimales ( 2 )

Fractions égales

$$\frac{15}{10} = \frac{150}{100}$$

(Note: Red circles with 'x10' and arrows indicate the multiplication of numerator and denominator by 10.)

Décomposition :

$$\frac{15}{10} = \frac{10}{10} + \frac{5}{10} = 1 + \frac{5}{10}$$
